AGENDA

TEXAS TRANSPORTATION COMMISSION
125 East 11th Street
Austin, Texas

THURSDAY
May 24, 2018

9:00 A.M. CONVENE MEETING

1. Safety Briefing

Staff will provide general safety instruction.

2. Special Safety Presentation

3. Consider the approval of the Minutes of the April 26, 2018, regular meeting of the Texas Transportation Commission

4. Acknowledgment of Service

Recognize by resolution James K. (Kelly) Selman, P.E., Dallas District Engineer, for 32 years of service to the department

5. Contracts

Consider the award or rejection of contracts for highway construction and maintenance, and construction and rehabilitation of buildings (Presentation)

These proposed minute orders contain information concerning the receipt of bids for highway improvement contracts. The department may reschedule receipt of bids for those projects where the commission rejects all bids. Those bids accepted by the commission will result in conditional contract awards to the low bidders. Contract award conditions may involve securing funding from other sources, the contractor's ability to satisfy federal DBE subcontracting requirements, or other requirements as outlined in the project bid proposal.

a. Construction of Highways and Other Transportation Facilities

(see attached itemized list) (MO)

b. Highway Maintenance (see attached itemized list) (MO)

c. Construction and Rehabilitation of Buildings

(see attached itemized list) (MO)

6. **Design-Build Contracts**

- a. **Dallas County - I-635 LBJ East Project** - Consider authorizing the department to issue a request for qualifications to design, develop, construct, and potentially maintain improvements in the I-635 corridor from US 75 to I-30 in Dallas County (I-635 LBJ East Project), with no new toll lanes, and consider approving the department's determination to exercise its option to develop, finance, construct, and operate the I-635 LBJ East Project. The project includes the full reconstruction of the facility with the addition of one general purpose lane in each direction, to "grandfather" and permit the reconstruction of the existing one tolled managed lane in each direction, construction of continuous frontage roads, and improvements to the I-635/I-30 interchange. **The project will not include funding from either Propositions 1 or 7.** (MO) (Presentation)

Transportation Code §223.242 authorizes the department to enter into, in each fiscal year, up to three design-build contracts for highway projects with a construction cost estimate of \$150 million or more. The I-635 LBJ East Project is a crucial element to providing system continuity and improving safety and mobility in the area and meets the requirements for design-build delivery.

- b. **Hidalgo County - I-2/I-69C Interchange Project** - Authorize the department to issue a request for qualifications to design, develop, construct, and potentially maintain the non-tolled I-2/I-69C Interchange Project, which provides for the full reconstruction of the I-2/I-69C interchange and operational improvements to I-2 and I-69C in McAllen, Pharr, and San Juan in Hidalgo County (MO) (Presentation)

Transportation Code §223.242 authorizes the department to enter into, in each fiscal year, up to three design-build contracts for highway projects with a construction cost estimate of \$150 million or more. The I-2/I-69C interchange currently consists of one lane direct connectors that result in traffic congestion and reduced mobility within the project area. The I-2/I-69C Interchange Project will provide for two lane direct connectors, increased capacity on I-2, and other operational improvements. These crucial elements provide system continuity and improve capacity, connectivity, and mobility in the area.

7. **Discussion Item**

Legislative Appropriations Request (LAR)

Discussion regarding the development of the Texas Department of Transportation's Fiscal Year 2020-2021 Legislative Appropriations Request (Presentation)

Staff will discuss the development of the LAR with the commission and seek direction on components of the LAR, which include overall funding and FTE levels.

8. **Strategic Plan**

Consider the adoption of the 2019-2023 Strategic Plan for submission to the Legislative Budget Board and Governor's Office (MO) (Presentation)

The department's 2019-2023 Strategic Plan provides the mission, goals, action plans, and budget structure (objectives, strategies, and budgetary performance measures) that will direct the department over the next five years. In addition to these core components, the plan includes all of the supplemental components required by the Legislative Budget Board and the Governor's Office, such as the HUB plan, capital improvement plan, workforce plan, survey of employee engagement report, customer service report, and an identification of redundancies and impediments. Upon commission approval, department staff will finalize the plan package according to the instructions provided by the Legislative Budget Board and the Governor's Office for official submission of the plan to those entities by the June 8, 2018 deadline.

9. **Public Transportation**

Various Counties - Consider the award of state and federal grant funds to various entities for projects submitted in the biennial Coordinated Call for Projects, and the award of residual funds to East Texas Council of Governments for fleet replacement (MO)
Entities responded to a coordinated program request for proposals for state funds and federal §5304 Statewide and Nonmetropolitan Transportation Planning Program funds, §5311 Formula Grants for Rural Areas Program funds, and §5311(b)(3) Rural Transit Assistance Program funds. The awards identified in this minute order reflect the allocation of funds to various responding entities. This minute order also awards residual Transportation Investment Generating Economic Recovery (TIGER) program funds, §5311 Formula Grants for Rural Areas Program funds, and state funds to East Texas Council of Governments for fleet replacement.

10. **Promulgation of Administrative Rules** Under Title 43, Texas Administrative Code, and the Administrative Procedure Act, Government Code, Chapter 2001:

Proposed Adoption

a. **Chapter 2 - Environmental Review of Transportation Projects**

Amendments to §§2.5, 2.7, 2.14 (General Provisions), §§2.43, 2.45, 2.49 (Environmental Review Process for Highway Projects), §§2.81, 2.83-2.85 (Requirements for Classes of Projects), §§2.101-2.103, 2.105-2.110 (Public Participation); Repeal of §2.12 (General Provisions), §2.104 (Public Participation), and §2.131 (Requirements for Specific Types of Projects and Programs); and New §2.104 (Public Participation) (MO)

These changes implement Senate Bill 312, Section 21, 85th Legislature, Regular Session, 2017, requiring a hearing for projects that substantially change the layout or function of a connecting roadway or an existing facility, including the addition of managed lanes, high-occupancy vehicle lanes, bicycle lanes, bus lanes, and transit lanes. They also add clarity, correct inconsistencies, eliminate unnecessary rule language, more accurately implement statutory requirements, and generally further streamline and improve the environmental review process.

b. **Chapter 9 - Contract and Grant Management**

Amendments to §§9.300-9.302, 9.305, 9.314, 9.316, 9.325, and 9.330, Small Business Enterprise (SBE) Program (MO)

The proposed amendments are necessary to implement recommendations from the Texas Sunset Advisory Commission that required the department to evaluate the Small Business Enterprise program, and will allow the department to continue providing meaningful contracting opportunities for small businesses. The proposed amendments also include minor technical corrections to various provisions.

c. **Chapter 9 - Contract and Grant Management**

Amendments to §9.2, Contract Claim Procedure, §9.12, Qualification of Bidders, §9.13, Notice of Letting and Issuance of Bid Forms, §9.15, Acceptance, Rejection, and Reading of Bids, and §9.17, Award of Contract; New §9.22, Liquidated Damages, §9.23, Evaluation and Monitoring of Contract Performance, §9.24, Performance Review Committee and Actions, §9.25, Appeal of Remedial Action, and §9.26, Inclusion of Contract Remedies in Contracts; Repeal of §§9.101-9.115 (MO) (Presentation)

These rules implement the requirements of Senate Bill 312, 85th Legislature, Regular Session, 2017, (Transportation Code §223.012). Additionally, minor changes are made to update existing rules to reflect current department practices.

10. **Promulgation of Administrative Rules (continued)**
Proposed Adoption (continued)
- d. **Chapter 10 - Ethical Conduct by Entities Doing Business with the Department**
 Amendments to §§10.1, 10.2, 10.5, and 10.7 (General Provisions); §§10.101 and 10.102 (Required Conduct by Entities Doing Business with the Department); and §§10.251 - 10.254, 10.256, and 10.257 (Sanctions for Ethical Violations by Other Entities); Repeal of §§10.151 - 10.160 (Score Reduction for Ethical Violations by Architectural, Engineering, and Surveying Service Providers); §§10.201 - 10.206 (Removal of Precertification of Architectural, Engineering, and Surveying Service Providers for Ethical Violations); and §10.255, Application of Sanction (MO)
To implement the requirements of Senate Bill 312, 85th Legislature, Regular Session, 2017, the department is reorganizing its rules governing contractor performance and required ethical conduct by entities doing business with the department. Amendments establish one department-wide process for sanctioning an entity doing business with the department for a violation of required ethical conduct and revise the required conduct for entities doing business with the department to align with conduct requirements in other chapters of department rules and with contractor business ethics and conduct requirements for federal contracts.
11. **Eminent Domain Proceedings**
Various Counties - Consider the authorization of the filing of condemnation proceedings to acquire real property by eminent domain for non-controlled and controlled access highways (see attached itemized list) (MO)
Commission findings, determinations, and authorizations for the state, by motion made in accordance with Senate Bill 18 (82nd Legislature), to acquire by eminent domain, upon the payment of adequate and just compensation, various ownership interests in specific parcels of real property that are needed to develop or improve both non-controlled and controlled access state highways, to include requesting the state attorney general to bring and pursue condemnation suits relating to those specific parcels of real property described in the attached itemized list.
12. **Routine Minute Orders and Reports**
- a. **Donations to the Department**
Various Districts - Consider the acknowledgment of donations with a value of \$500 or more, including donations of money, materials, services, or real property, that are made to the department for the purpose of assisting the department in carrying out its functions and duties or for improving access to or from a highway on the state highway system (see attached itemized list) (MO)
State statutes require the commission to acknowledge the acceptance of a gift to the department that is valued at \$500 or more. By the adoption of this minute order, the commission acknowledges the receipt and acceptance of the property specified in the minute order.
- b. **Real Estate Dispositions**
The commission must approve the sales, transfers, and exchanges of state rights of way and other real properties that are no longer needed for a state highway purpose.
- (1) **El Paso County** - FM 1505 in El Paso - Consider the removal from the system, transfer of control, jurisdiction, and maintenance to the City of El Paso (city), and quitclaim of right of way to the city (MO)
The district has determined that the highway is no longer needed as part of the system. The city has agreed to assume control, jurisdiction, and maintenance. There is no record title to the land, and it may be quitclaimed to the city without cost.

12. **Routine Minute Orders and Reports (continued)**

b. **Real Estate Dispositions (continued)**

- (2) **Kaufman County** - BS 34-A in Terrell - Consider the correction of an error in a portion of the description of right of way to be transferred to the City of Terrell (MO)

By Minute Order 114994, passed on July 27, 2017, a segment of BS 34-A was removed from the highway system, and the commission recommended that the governor execute an instrument transferring the right of way to the City of Terrell (city). However, Exhibit B to the minute order contained an error in a portion of the description of the right of way. This minute order corrects that error. The city has agreed to assume control, jurisdiction, and maintenance and has requested that the right of way be transferred to the city. The right of way may be transferred to the city without cost to remain in use for public road purposes.

- (3) **Smith County** - US 69 at County Road 145 in Bullard - Consider the sale of a drainage easement (MO)

The district has determined that the easement is no longer needed for highway drainage purposes and may be sold to the fee owner of the property.

c. **Reports**

Compliance Division report

State law requires the commission to establish a compliance program, which must include a Compliance Division to oversee the program. The Compliance Division is responsible for acting to prevent and detect serious breaches of department policy, fraud, waste, and abuse of office, including any acts of criminal conduct within the department. The Compliance Division is required to provide a monthly report to the commission regarding investigations and a summary of information relating to trends and recommendations.

d. **Finance**

Travis and Williamson Counties - Consider the acceptance of the annual Inspection Report for the Central Texas Turnpike System (MO)

The General Engineering Consultant's annual Inspection Report relates to the 2002 Project of the CTTS, a toll project composed of the SH 130, SH 45N, Loop 1, and SH 45SE project elements, and is required under the CTTS bond indenture. This report must be submitted to the commission following each inspection and on or before the 90th day prior to the end of each fiscal year.

e. **Highway Designation**

Chambers County - In and near the cities of Old River-Winfree, Mont Belvieu and Cove, consider extending the designation of FM 1409 on a new location (MO)

This minute order extends the designation of FM 1409 on a new location from FM 565 in Old River-Winfree southward through Mont Belvieu to FM 565 in Cove, a distance of approximately 3.8 miles.

f. **Rail Clearance Deviations**

Consider the approval of rail clearance deviations (MO)

This minute order authorizes approval of applications for rail clearance deviations, which are waivers from clearance provisions for structures over and alongside railway tracks. The department has reviewed the applications and seeks approval of these waivers.

g. **Speed Zones**

Various Counties - Consider the establishment or alteration of regulatory and construction speed zones on various sections of highways in the state (MO)

This minute order establishes or alters regulatory and construction speed zones on various sections of highways in the state.

13. **Executive Session** Pursuant to Government Code, Chapter 551
Section 551.071 - Consultation with and advice from legal counsel regarding any item on this agenda, pending or contemplated litigation, or other legal matters.

OPEN COMMENT PERIOD - At the conclusion of all other agenda items, the commission will allow an open comment period, not to exceed one hour, to receive public comment on any other matter that is under the jurisdiction of the department. No action will be taken. Each speaker will be allowed a maximum of three minutes. Speakers must be signed up prior to the beginning of the open comment period.

ADJOURN

* * *

NOTE:

Enumerated agenda items are assigned numbers for ease of reference only, and will not necessarily be considered by the commission in that particular order. Items identified with (MO) for minute order are those upon which the commission is considering an action. Persons with special needs or disabilities who plan to attend this meeting and require auxiliary aids or services are requested to contact Robin Carter at (512) 305-9536 at least three working days prior to the meeting so that appropriate arrangements can be made.
