AGENDA

TEXAS TRANSPORTATION COMMISSION
125 East 11th Street
Austin, Texas

THURSDAY
April 25, 2019

9:00 A.M. CONVENE MEETING

1. Safety Briefing

Staff will provide general safety instruction.

2. Consider the approval of the Minutes of the March 28, 2019, regular meeting of the Texas Transportation Commission

3. Contracts

Consider the award or rejection of contracts for highway construction and maintenance, and construction and rehabilitation of buildings (Presentation)

These proposed minute orders contain information concerning the receipt of bids for highway improvement contracts. The department may reschedule receipt of bids for those projects where the commission rejects all bids. Those bids accepted by the commission will result in conditional contract awards to the low bidders. Contract award conditions may involve securing funding from other sources, the contractor's ability to satisfy federal DBE subcontracting requirements, or other requirements as outlined in the project bid proposal.

a. Highway Improvement and Other Transportation Facilities

(see attached itemized list) (MO)

b. Routine Maintenance (see attached itemized list) (MO)

c. Construction and Rehabilitation of Buildings

(see attached itemized list) (MO)

4. Design-Build Contract

Bexar, Comal, and Guadalupe Counties - Consider authorizing the department to issue a request for qualifications to design, develop, construct, and maintain the I-35 Northeast Expansion Project, consisting of non-tolled improvements along I-35 from approximately I-410 south to FM 1103 in Bexar, Comal, and Guadalupe Counties (MO) (Presentation)

Transportation Code §223.242 authorizes the department to enter into, in each fiscal year, up to three design-build contracts for highway projects with a construction cost estimate of \$150 million or more. I-35 is a major north-south transportation corridor critical for moving people and goods. Portions of this project are part of the 100 most congested roadways in Texas. The proposed improvements would manage vehicle congestion, promote efficient use of existing transportation facilities, minimize impacts to the natural and built environment, and complement other modes of transportation and economic development initiatives in the region. This project meets the requirements for design-build delivery.

5. **Aviation**
Various Counties - Consider the award of federal non-primary entitlement grant funding and federal apportionment grant funding for airport improvement projects at various locations (MO) (Presentation)
Federal law authorizes the award of federal non-primary entitlement grant funding and federal apportionment grant funding to preserve and improve the state's general aviation system.

6. **Public Transportation**
Various Counties - Consider the award of federal funds for public transportation to multiple entities for a variety of program eligible purposes (MO) (Presentation)

Commission findings, determinations, and authorizations for the state, by motion made in accordance with Senate Bill 18 (82nd Legislature), to acquire by eminent domain, upon the payment of adequate and just compensation, various ownership interests in specific parcels of real property that are needed to develop or improve both non-controlled and controlled access state highways, to include requesting the state attorney general to bring and pursue condemnation suits relating to those specific parcels of real property described in the attached itemized list.
